INDEX TO VOLUME 39*

A

Aberrant left pulmonary artery; correctable cause of respiratory obstruction (Jacobson, Morgan, Andersen, and Humphreys), 602

Abscess, pulmonary, pyogenic, prognostic factors and results of treatment in (Andersen and McDonald), 573

tuberculous pericardial, pulsating epigastric mass due to perforation through diaphragm (Connar, Murdaugh, and MacIntosh), 263

Abscesses, intramural, of esophagus: complication of foreign bodies (Sanborn), 586

Acidosis following respiratory alkalosis in thoracic operations with and without heart-lung bypass (Dobell, Gutelius, and Murphy), 312

postoperative, relationship to pulmonary and cardiovascular function (Clowes, Alichniewicz, del Guercio, and Gillespie), 1

Actis Dato, A. (with Dogliotti, A. M., Dellepiane, G., Gentilli, R., and Siliquini, P. N.), Mitral commissurotomy in pregnancy, 663

Adams, William E. (with Daicoff, George R., Brunnen, Peter L., Siderius, Norman, Pine, Roger D., and Moulder, Peter V.), Experimental delayed occlusion of the left coronary artery, 672

Adler, Richard H. (with Taheri, Syde A., and Weintraub, David H.), Mediastinal teratoma in infancy; report of successful removal from premature infant and review of literature, 394

Air embolism, mechanism and prevention of, during correction of congenital cleft mitral valve (Starr), 808

Alfano, Guy A. (with Andersen, Murray N., and Mendelow, Marianne), A comparative study of heparin neutralization and danger of blood clotting abnormalities with protamine and Polybrene, 613

Alichniewicz, Andrzej (with Clowes, George H. A., Jr., del Guercio, Louis R. M., and Gillespie, David), The relationship of postoperative acidosis to pulmonary and cardiovascular function, 1

Alkalosis, respiratory, acidosis following, in thoracic operations with and without heart-lung bypass (Dobell, Gutelius, and Murphy), 312

American Association for Thoracic Surgery, Program 40th Annual Meeting, 815

Anaphylactoid shock due to homologous blood exchange in dog (Dow, Dickson, Hamer, and Gadboys), 449

effects of, from blood exchange on cardiopulmonary bypass in dog (Dow, Dickson, Hamer, and Gadboys), 457

Anatomic and physiologic studies 35 months after successful replantation of lung (Portin, Rasmussen, Stewart, and Andersen), 380

Andersen, Dorothy H. (with Jacobson, Julius H., II, Morgan, Beverly C., and Humphreys, George H., II), Aberrant left pulmonary artery; a correctable cause of respiratory obstruction, 602

Andersen, Murray N. (with McDonald, Khlar E.), Prognostic factors and results of treatment in pyogenic pulmonary abscess, 573

(with Mendelow, Marianne, and Alfano, Guy A.), A comparative study of heparin neutralization and the danger of blood clotting abnormalities with protamine and Polybrene, 613

(with Portin, Bertram A., Rasmussen, Grant L., and Stewart, John D.), Physiologic and anatomic studies 35 months after successful replantation of the lung, 380

Aneurysm, aortic arch, surgical treatment of aorticopulmonary fistula secondary to; report of successful case (Giacobine and Cooley), 130

and mediastinal tumor, differentiation of (Connolly, Utzinger, and Smith), 640

Aneurysms, intrathoracic, technical problems in surgical repair of (Ellison, Co[illegible] and Moretz), 486

thoracic, experimental studies with extracorporeal circuits as method to enable surgical attack on (Austen and Shaw), 337

Angiocardiography, selective, perforation of right ventricle during (Doppman, Shapiro, Wilson, Mattie, and Carter), 500

*January, pp. 1-136; February, pp. 137-274; March, pp. 275-416; April, pp. 417-554; May, pp. 555-694; June, pp. 695-840.

Angola, Enrique (with Head, Louis R., Coenen, Joop P., Nogueira, Cid, Mendelsohn, David, and Kay, Earle B.), Operation of the roller pump for extracorporeal circulation, 210
Ankeney, Jay L. (with Viles, Peter H., and Cox, Lorna M.), The effect of 2 per cent carbon dioxide on pH and pCO_2 during extracorporeal circulation, 619
Anomalous origin of coronary arteries with special reference to surgical treatment (Rowe and Young), 777
Antiheparin agent in open heart surgery, clinical use of Polybrene as (Blumberg, Winterscheid, Dillard, Vetto, and Merendino), 330
Aorta, autotransplantation of pulmonic valve into (Lower, Stofer, and Shumway), 680
coarctation of, in infants; clinical and experimental study (Burford, Ferguson, Goldring, and Behrer), 47
problems in surgical management of (Groves and Effler), 60
thoracic, open versus closed left atrial drainage during cross-clamping of (Snyder, Williams, and Campbell), 634
Aortic arch aneurysm, surgical treatment of aorticopulmonary fistula secondary to (Giacobine and Cooley), 130
right, persistent, tubular hypoplasia of, with surgical correction (Quinn, Passaro, and Sirak), 649
insufficiency, plication of aortic ring in correction of (Hurwitt, Hoffert, and Rosenblatt), 654
Aorticopulmonary fistula, surgical treatment of, secondary to aortic arch aneurysm; report of successful case (Giacobine and Cooley), 130
Arteries, coronary, anamolous origin of, with special reference to surgical treatment (Rowe and Young), 777
Arteriovenous fistula, innominate (MacLean and Mazzitello), 770
of left internal mammary vessels simulating patent ductus arteriosus (Holland), 767
Ashmore, P. G. (with Aszkanazy, C. L., and Kenning, G. S.), An unusual cause of death following surgery for ventricular septal defect, 751
Aszkanazy, C. L. (with Ashmore, P. G., and Kenning, G. S.), An unusual cause of death following surgery for ventricular septal defect, 751
Atrial septal defect, results of surgical correction of, complicated by pulmonary hypertension (Liddle, Meyer, and Jones), 35
Attur, Safuh, Discussion of pericardiectomy, 32
Austen, W. Gerald (with Shaw, Robert S.), Experimental studies with extracorporeal circuits as a method to enable surgical attack on thoracic aneurysms, 337
Autotransplantation of pulmonic valve into aorta (Lower, Stofer, and Shumway), 680
Azygos flow studies and cardiopulmonary bypass in dogs, role of epinephrine and norepinephrine in rebound cardiovascular phenomena in (Belisle, Woods, Nunn, Parker, Lee, and Richardson), 815

B

Baglio, Corrado M. (with Michel, Robert D., and Hunter, Warren C.), Primary interstitial pulmonary fibrosis: Diffuse and circumscribed forms, 695
Bauer, Helene (with Mendenhall, John T., Cree, Edna, Rasmussen, Howard K., and Curtis, John K.), Studies of pulmonary function before and after pulmonary resection in 450 tuberculous patients. II. Case analysis of patients with large loss of vital capacity and maximum breathing capacity, 189
Behrer, M. Remsen (with Burford, Thomas H., Ferguson, Thomas B., and Goldring, David), Coarctation of aorta in infants; clinical and experimental study, 47
Belisle, Charles A. (with Woods, Eugene F., Nunn, Daniel B., Parker, Edward F., Lee, William H., Jr., and Richardson, James A.), The role of epinephrine and norepinephrine in rebound cardiovascular phenomena in azygos flow studies and cardiopulmonary bypass in dogs, 815
Benvenuto, R. (with Wennemark, J. R., and Lewis, F. John), Destruction of the specialized conduction tissue in the live canine heart with iodine, 137
Bilateral surgical treatment of pulmonary tuberculosis (Pecora), 505
Björk, Viking Olov, Partial resection of the only remaining lung with the aid of respirator treatment, 179
Blades, Brian (with Pierpont, Howard), Lung perfusion with chemotherapeutic agents, 159
Blair, Emil (with Fellows, James), Pulmonary ventilation in hypothermia, 305
Blakemore, W. S. (with Zinsser, H. F., Kirby, C. K., Whitaker, W. B., and Johnson, J.), Pericardiectomy for relapsing pericarditis and chronic constrictive pericarditis, 26, 33
Blood clotting abnormalities, danger of, with protamine and Polybrene, comparative study of heparin neutralization and (Andersen, Mendelow, and Alfano), 613
exchange, anaphylactoid shock from, on cardiopulmonary bypass in dog (Dow, Dickson, Hamer, and Gadboys), 457

Blood exchange—Cont'd
homologous, in dog, anaphylactoid shock due to (Dow, Dickson, Hamer, and Gadboys), 449
flow, renal and portal, under normothermic and hypothermic conditions during extracorporeal circulation (Jontz, Bounous, Heimburger, Su, Teramoto, Shumacker, and Onnis), 781
replacement, flow determination, and volume control in the rotating disc oxygenator (Cartwright and Palich), 624
Bloodwell, Robert D. (with Waldhausen, John A., Braunwald, Nina S., Cornell, William P., and Morrow, Andrew G.), Left ventricular function following elective cardiac arrest, 799
Blumberg, Jack B. (with Winterscheid, Loren C., Dillard, David H., Vetto, Roy R., and Merendino, K. Alvin), The clinical use of Polybrene as an antiheparin agent in open heart surgery, 330
Body perfusion, whole, high flow, normothermic, physiologic studies during (McGoon, Moffitt, Theye, and Kirklin), 275
Botham, Richard J. (with Dracopoulos, Theodore T., and Gale, Joseph W.), Superior vena caval replacement with sponge Teflon prosthesis, 202
Bounous, G. (with Jontz, J., Heimburger, I., Su, C. S., Teramoto, S., Shumacker, H. B., Jr., and Onnis, M.), Renal and portal blood flow under normothermic and hypothermic conditions during extracorporeal circulation, 781
Bramson, M. L. (with Osborn, John J., and Gerbode, Frank), A rotating disc blood oxygenator and integral heat exchanger of improved inherent efficiency, 427
Braunwald, Nina S. (with Waldhausen, John A., Bloodwell, Robert D., Cornell, William P., and Morrow, Andrew G.), Left ventricular function following elective cardiac arrest, 799
Breathing capacity, maximum, and vital capacity, case analysis of patients with large loss of. II. Studies on pulmonary function before and after pulmonary resection in 450 tuberculous patients (Mendenhall, Cree, Rasmussen, Bauer, and Curtis), 189
Brom, A. G., Discussion of coarctation of aorta, 86
Bronchogenic carcinoma: comparison of natural course and treatment with resection, x-radiation, and nitrogen mustard (Hughes, Pate, and Campbell), 409
Bronchopleural fistulas, management of (Padhi and Lynn), 385
Bronchopulmonary sequestration (Claman and Ehrenhaft), 531
Brunnen, Peter L. (with Daicoff, George R., Siderius, Norman, Pine, Roger D., Moulder, Peter V., and Adams, William E.), Experimental delayed occlusion of the left coronary artery, 672
Bulla, emphysematous, pre- and postoperative cardiopulmonary dynamics of (Sato, Yoshida, and Uchida), 516
Burford, Thomas H. (with Ferguson, Thomas B., Goldring, David, and Behrer, M. Remsen), Coarctation of aorta in infants; clinical and experimental study, 47
Bypass, cardiopulmonary, in dog, effects of anaphylactoid shock from blood exchange on (Dow, Dickson, Hamer, and Gadboys), 457
heart-lung, acidosis following respiratory alkalosis in thoracic operations with and without (Dobell, Gutelius, and Murphy), 312

C

Cahan, William G., Radical lobectomy, 555
Campbell, Gilbert S. (with Snyder, David D., and Williams, G. Rainey), Open versus closed left atrial drainage during cross-clamping of the thoracic aorta, 634
Campbell, Roger E. (with Hughes, Felix A., Jr., and Pate, James W.), Bronchogenic carcinoma: Comparison of natural course and treatment with resection, x-radiation, and nitrogen mustard, 409
Campbell, Thomas A. (with Keeley, John L.), Duodenobronchial fistula; with a summary of abdominothoracic fistulas, 538
Canine heart, live, destruction of specialized conduction tissue in, with iodine (Wennemark, Benvenuto, and Lewis), 137
Carcinoma, bronchogenic: Comparison of natural course and treatment with resection, x-radiation, and nitrogen mustard (Hughes, Pate, and Campbell), 409
primary, of lung; follow-up study including pulmonary function studies of long-term survivors (Jones, Robinson, Meyer, and Motley), 144
Cardiac arrest, elective, left ventricular function following (Waldhausen, Braunwald, Bloodwell, Cornell, and Morrow), 799
bypass, total, potassium ion as cardioplegic agent in, and during hypothermia with coronary perfusion (Kaplan and Fisher), 468
surgery, analysis of deaths following (Harrison, Davila, Iaia, and Glover), 91
Cardiographs or cardioscopes, two, during surgery, junction box for viewing different leads on (Cobb and Mulligan), 756

Cardioplegic agent, potassium ion as, in total cardiac bypass and during hypothermia with coronary perfusion (Kaplan and Fisher), 468
Cardiopulmonary bypass and azygos flow studies in dogs, role of epinephrine and norepinephrine in rebound cardiovascular phenomena in (Belisle, Woods, Nunn, Parker, Lee, and Richardson), 815
in the dog, effects of anaphylactoid shock from blood exchange on (Dow, Dickson, Hamer, and Gadboys), 457
dynamics, pre- and postoperative, of emphysematous bulla (Sato, Yoshida, and Uchida), 516
Cardioscopes or cardiographs, two, during surgery, junction box for viewing different leads on (Cobb and Mulligan), 756
Cardiotomy return and chest drainage systems, vacuum regulator for (Zuhdi, Kimmell, Carey, and Greer), 221
Cardiovascular and pulmonary function, relationship of postoperative acidosis to (Clowes, Alichniewicz, del Guercio, and Gillespie), 1
Carey, John (with Zuhdi, Nazih, Kimmell, Garman, Montroy, John, and Greer, Allen), A system for hypothermic perfusion, 629
(with Zuhdi, Nazih, Kimmell, Garman, and Greer, Allen), Vacuum regulator for cardiotomy return and chest drainage systems, 221
Carter, Max G. (with Doppman, John L., Shapiro, Robert, Wilson, George L., and Mattie, Louis R.), Perforation of the right ventricle during selective angiocardiography; report of a case, 500
Cartwright, Robert S. (with Palich, William E.), Simplified flow determination, volume control, and blood replacement in rotating disc oxygenator, 624
Chemotherapeutic agents, lung perfusion with (Pierpont and Blades), 159
Chest, anteriorly crushed, or "steering-wheel injury"; improved method for sternal traction (Virshup), 579
drainage and cardiotomy return systems, vacuum regulator for (Zuhdi, Kimmell, Carey, and Greer), 221
severe crushing injuries of; simple method of stabilization (Strug, Glass, Leon, and Salatich), 166
wall, malignant tumors involving (Watkins and Gerard), 117
Childhood, middle lobectomy for tuberculosis in (Thomas and Winn), 175
Chondroma, endobronchial, pure, case of (DeAngelis, Roberts, and Sochan), 593
Chordae tendineae, ruptured, repair of mitral insufficiency due to (McGoon), 357
Claassen, Leon G. (with Sirak, Howard D., Mechstroth, Charles V., Ryan, Joseph M., and Hosier, Don M.), The prevention of heart block in the surgical repair of interventricular septal defect, 229
Claman, M. A. (with Ehrenhaft, J. L.), Bronchopulmonary sequestration, 531
Clift, John V. (with Patt, Howard H., Loh, Paul B., Roa, Juanito C., Wexler, Jack, and Seligman, Arnold M.), Veno-arterial pumping in normal dogs and dogs with coronary occlusion, 464
Clowes, George H. A., Jr., Discussion of coarctation of aorta, 89
(with Alichniewicz, Andrzej, del Guercio, Louis R. M., and Gillespie, David), The relationship of postoperative acidosis to pulmonary and cardiovascular function, 1, 24
Clowes membrane lung, modification of (Peirce), 438
Coarctation of aorta in infants; clinical and experimental study (Burford, Ferguson, Goldring, and Behrer), 47
problems in surgical management of (Groves and Effler), 60
Cobb, Sanford (with Mulligan, Joseph F.), Junction box for viewing different leads on two cardiographs or cardioscopes during surgery, 756
Coccidioidoma (Owens, Paulsen, and Dykes), 545
Coenen, Joop P. (with Head, Louis R., Angola, Enrique, Nogueira, Cid, Mendelsohn, David, and Kay, Earle B.), Operation of the roller pump for extracorporeal circulation, 210
Conduction tissue injury, localization of: Heart block following intracardiac surgery (Reemtsma, Delgado, and Creech), 688
specialized, destruction of, in live canine heart with iodine (Wennemark, Benvenuto, and Lewis), 137
Congenital cleft mitral valve, mechanism and prevention of air embolism during correction of (Starr), 808
diaphragmatic hernia in adult; new technique in closure of Bochdalek hernia (Michelson), 238
Congenitally malformed hearts as aid to surgical diagnosis, postmortem external appearance of (Wilkinson, Potts, and Lev), 363
Connar, R. G. (with Murdaugh, H. B., Jr., and MacIntosh, H. D.), A pulsating epigastric mass due to perforation of a tuberculous pericardial abscess through the diaphragm, 263
Connolly, John E. (with Utzinger, William, and Smith, John W.), The differentiation of aneurysm and mediastinal tumor, 640

Cook, F. D. (with Smith, T. C., DeKornfeld, T. J., and Siebecker, K. L.), Pulmonary function in the immediate postoperative period, 788
Cooley, Denton A. (with Giacobine, James W.), Surgical treatment of aorticopulmonary fistula secondary to aortic arch aneurysm; report of successful case, 130
Cope, Jerome A. (with Ellison, Robert J., and Moretz, William H.), Technical problems in the surgical repair of intrathoracic aneurysms, 486
Cornell, William P. (with Waldhausen, John A., Braunwald, Nina S., Bloodwell, Robert D., and Morrow, Andrew G.), Left ventricular function following elective cardiac arrest, 799
Coronary arteries, anomalous origin of, with special reference to surgical treatment (Rowe and Young), 777
artery, left, experimental delayed occlusion of (Daicoff, Brunnen, Siderius, Pinc, Moulder, and Adams), 672
occlusion, veno-arterial pumping in normal dogs and dogs with (Patt, Clift, Lob, Roa, Wexler, and Seligman), 464
perfusion, potassium ion as cardioplegic agent in total cardiac bypass and during hypothermia with (Kaplan and Fisher), 468
Cox, Lorna M. (with Viles, Peter H., and Ankeney, Jay L.), The effect of 2 per cent carbon dioxide on pH and pCO_2 during extracorporeal circulation, 619
Cree, Edna (with Mendenhall, John T., Rasmussen, Howard K., Bauer, Helene, and Curtis, John K.), Studies of pulmonary function before and after pulmonary resection in 450 tuberculous patients. II. Case analysis of patients with large loss of vital capacity and maximum breathing capacity, 189
Creech, Oscar, Jr. (with Reemtsma, Keith, and Delgado, Jose P.), Heart block following intracardiac surgery: Localization of conduction tissue injury, 688
Crushing injuries, severe, of chest; simple method of stabilization (Strug, Glass, Leon, and Salatich), 166
Curtis, John K. (with Mendenhall, John T., Cree, Edna, Rasmussen, Howard K., and Bauer, Helene), Studies of pulmonary function before and after pulmonary resection in 450 tuberculous patients. II. Case analysis of patients with large loss of vital capacity and maximum breathing capacity, 189

D

Daicoff, George R. (with Brunnen, Peter L., Siderius, Norman, Pinc, Roger D., Moulder, Peter V., and Adams, William E.), Experimental delayed occlusion of the left coronary artery, 672
Davila, Julio C. (with Harrison, James L., Iaia, Bart D., and Glover, Robert P.), An analysis of deaths following cardiac surgery, 91, 108
DeAngelis, Carmelo E. (with Roberto, Albert, and Sochan, Oleh), A case of pure endobronchial chondroma, 593
Death following surgery for ventricular septal defect, unusual cause of (Ashmore, Aszkanazy, and Kenning), 751
Deaths, analysis of, following cardiac surgery (Harrison, Davila, Iaia, and Glover), 91
Defect, atrial septal, surgical correction of, complicated by pulmonary hypertension (Liddle, Meyer, and Jones), 35
DeKornfeld, T. J. (with Smith, T. C., Cook, F. D., and Siebecker, K. L.), Pulmonary function in the immediate postoperative period, 788
Delgado, Jose P. (with Reemtsma, Keith, and Creech, Oscar, Jr.), Heart block following intracardiac surgery: Localization of conduction tissue injury, 688
Del Guercio, Louis R. H. (with Clowes, George H. A., Jr., Alichniewicz, Andrzej, and Gillespie, David), The relationship of postoperative acidosis to pulmonary and cardiovascular function, 1
Dellepiane, G. (with Dogliotti, A. M., Actis Dato, A., Gentilli, R., and Siliquini, P. N.), Mitral commissurotomy in pregnancy, 663
De Niord, R. N., Jr. (with Owen, Earl T., and Hancock, Edward H., Jr.), Intrathoracic reduplication cysts, 736
Diagnosis, surgical, postmortem external appearance of congenitally malformed hearts as an aid to (Wilkinson, Potts, and Lev), 363
Diaphragmatic hernia, congenital, in adult; new technique in closure of Bochdalek hernia (Michelson), 238
Dickson, James F., III (with Dow, James W., Hamer, Neil A. J., and Gadboys, Howard L.), Anaphylactoid shock due to homologous blood exchange in the dog, 449
(with Dow, James W., Hamer, Neil A. J., and Gadboys, Howard L.), The effects of anaphylactoid shock from blood exchange on cardiopulmonary bypass in the dog, 457
Dillard, David H. (with Blumberg, Jack B., Winterscheid, Loren C., Vetto, Roy R., and Merendino, K. Alvin), The clinical use of Polybrene as an antiheparin agent in open heart surgery, 330

Dillon, M. L. (with Postlethwait, R. W., Wilson, J. R., Smith, L. C., Fujita, M., and Salem, M. H.), Experimental chronic tuberculous pericarditis, 514

Dobell, Anthony R. C. (with Gutelius, John R., and Murphy, David R.), Acidosis following respiratory alkalosis in thoracic operations with and without heart-lung bypass, 312

Dogliotti, A. H. (with Dellepiane, G., Actis Dato, A., Gentilli, R., and Siliquini, P. N.), Mitral commissurotomy in pregnancy, 663

Doppman, John L. (with Shapiro, Robert, Wilson, George L., Mattie, Louis R., and Carter, Max G.), Perforation of the right ventricle during selective angiocardiography; report of a case, 500

Dow, James W. (with Dickson, James F., III, Hamer, Neil A. J., and Gadboys, Howard L.), Anaphylactoid shock due to homologous blood exchange in the dog, 449

(with Dickson, James F., III, Hamer, Neil A. J., and Gadboys, Howard L.), The effects of anaphylactoid shock from blood exchange on cardiopulmonary bypass in the dog, 457

Dracopoulos, Theodore T. (with Botham, Richard J., and Gale, Joseph W.), Superior vena caval replacement with sponge Teflon posthesis, 202

Drainage, left atrial, open versus closed, during cross-clamping of thoracic aorta (Snyder, Williams, and Campbell), 634

tubes, patency of, new instrument to maintain (Hey), 694

Duodenobronchial fistula; with summary of abdominothoracic fistulas (Keeley and Campbell), 538

Dykes, Jack (with Owens, Charles E., and Paulsen, George A.), Coccidioidoma, 545

E

Ear oximeter studies, postoperative, in thoracotomy patients. II. Variations in operative procedures and with stir-up regime (Smith and Siebecker), 478

Effler, Donald B. (with Groves, Laurence K.), Problems in surgical management of coarctation of the aorta, 60

Ehrenhaft, J. L. (with Claman, M. A.), Bronchopulmonary sequestration, 531

Eldred, W. James (with Samson, Paul C.), An inquiry into the causes and prevention of complications in resection surgery for pulmonary tuberculosis, 716

Ellison, Robert G. (with Cope, Jerome A., and Moretz, William H.), Technical problems in the surgical repair of intrathoracic aneurysms, 486

Emphysema, bullous, and recurrent pneumothorax, results and complications of pleurectomy for (Thomas and Gebauer), 194

Emphysematous bulla, pre- and postoperative cardiopulmonary dynamics of (Sato, Yoshida, and Uchida), 516

Epigastric mass, pulsating, due to perforation of tuberculous pericardial abscess through diaphragm (Connar, Murdaugh, and MacIntosh), 263

Epinephrine and norepinephrine, role of, in rebound cardiovascular phenomena in azygos flow studies and cardiopulmonary bypass in dogs (Belisle, Woods, Nunn, Parker, Lee, and Richardson), 815

Epstein, Arnold H. (with Klassen, Karl P.), Spontaneous superior mediastinal hemorrhage, 740

Esophagus, intramural abscesses of: Complication of foreign bodies (Sanborn), 586

Expiratory flow rates, maximum; pulmonary function in immediate postoperative period (Smith, Cook, DeKornfeld, and Siebecker), 788

Extracorporeal circuits, experimental studies with, as method to enable surgical attack on thoracic aneurysms (Austen and Shaw), 337

circulation, effect of 2 per cent carbon dioxide on pH and pCO_2 during (Viles, Ankeney, and Cox), 619

operation of roller pump for (Head, Coenen, Angola, Nogueira, Mendelsohn, and Kay), 210

renal and portal blood flow under normothermic and hypothermic conditions during (Jontz, Bounous, Heimburger, Su, Teramoto, Shumacker, and Onnis), 781

method, improved: Rapid hypothermia (Urschel, Greenberg, and Roth), 318

pump-oxygenator, respiratory characteristics of (Montgomery), 288

F

Falor, William H. (with Lansden, Frank T.), Congenital esophagorespiratory fistula in adult, 246

Pate, James W. (with Hughes, Felix A., Jr., and Campbell, Roger E.), Bronchogenic carcinoma: Comparison of natural course and treatment with resection, x-radiation, and nitrogen mustard, 409
Patency of drainage tubes, new instrument to maintain (Hey), 694
Patent ductus arteriosus, arteriovenous fistula of left internal mammary vessels simulating (Holland), 767
dissecting hematomas of intrapulmonary arteries in a case of pulmonary hypertension associated with (Ravines), 760
Paton, Bruce C. (with Montgomery, Vernon, Lucero, Jack, and Swan, Henry), The design of monitoring devices for use with pump-oxygenator, 225

Patt, Howard H. (with Clift, John V., Loh, Paul B., Roa, Juanito C., Wexler, Jack, and Seligman, Arnold M.), Veno-arterial pumping in normal dogs and dogs with coronary occlusion, 464
Paulsen, George A. (with Owens, Charles E., and Dykes, Jack), Coccidioidoma, 545
pCO_2 and pH during extracorporeal circulation, effect of 2 per cent carbon dioxide on (Viles, Ankeney, and Cox), 619
Pecora, David V., Bilateral surgical treatment of pulmonary tuberculosis, 505
Peirce, E. Converse, II, A modification of the Clowes membrane lung, 438
Perforation of the right ventricle during selective angiocardiography; report of case (Doppman, Shapiro, Wilson, Mattie, and Carter), 500
of tuberculous pericardial abscess through diaphragm, pulsating epigastric mass due to (Connar, Murdaugh, and MacIntosh), 263
Perfusion, hypothermic, system for (Zuhdi, Kimmell, Montroy, Carey, and Greer), 629
lung, with chemotherapeutic agents (Pierpont and Blades), 159
whole body, high flow, normothermic, physiologic studies during (McGoon, Moffitt, Theye, and Kirklin), 275
Pericardial abscess, tuberculous, pulsating epigastric mass due to perforation of, through diaphragm (Connar, Murdaugh, and MacIntosh), 263
Pericardiectomy for relapsing pericarditis and chronic constrictive pericarditis (Blakemore, Zinsser, Kirby, Whitaker, and Johnson), 26
Pericarditis, chronic constrictive, and relapsing pericarditis, pericardiectomy for (Blakemore, Zinsser, Kirby, Whitaker, and Johnson), 26
relapsing and chronic constrictive pericarditis, pericardiectomy for (Blakemore, Zinsser, Kirby, Whitaker, and Johnson), 26
tuberculous, experimental chronic (Postlethwait, Wilson, Smith, Dillon, Fujita, and Salem), 514
pH and pCO_2 during extracorporeal circulation, effect of 2 per cent carbon dioxide on (Viles, Ankeney, and Cox), 619
Physiologic and anatomic studies 35 months after successful replantation of lung (Portin, Rasmussen, Stewart, and Andersen), 380
Pierpont, Howard (with Blades, Brian), Lung perfusion with chemotherapeutic agents, 159
Pinc, Roger D. (with Daicoff, George R., Brunnen, Peter L., Siderius, Norman, Moulder, Peter V., and Adams, William E.), Experimental delayed occlusion of the left coronary artery, 672
Pitt, Leldon P., Pulmonary alveolar proteinosis; review of literature and case report, 252
Pleurectomy, results and complications of, for bullous emphysema and recurrent pneumothorax (Thomas and Gebauer), 194
Plication of aortic ring in correction of aortic insufficiency (Hurwitt, Hoffert, and Rosenblatt), 654
Pneumothorax, recurrent, and bullous emphysema, results and complications of pleurectomy for (Thomas and Gebauer), 194
Polybrene, clinical use of, as antiheparin agent in open heart surgery (Blumberg, Winterscheid, Dillard, Vetto, and Merendino), 330
and protamine, comparative study of heparin neutralization and danger of blood clotting abnormalities with (Andersen, Mendelow, and Alfano), 613
Portin, Bertram A. (with Rasmussen, Grant L., Stewart, John D., and Andersen, Murray N.), Physiologic and anatomic studies 35 months after successful replantation of the lung, 380
Postlethwait, R. W. (with Wilson, J. R., Smith, L. C., Dillon, M. L., Fujita, M., and Salem, M. H.), Experimental chronic tuberculous pericarditis, 514
Postmortem external appearance of congenitally malformed hearts as aid to surgical diagnosis (Wilkinson, Potts, and Lev), 363
Potassium ion as cardioplegic agent in total cardiac bypass and during hypothermia with coronary perfusion (Kaplan and Fisher), 468
Potts, Willis J. (with Wilkinson, Albert H., Jr., and Lev, Maurice), The postmortem external appearance of congenitally malformed hearts as an aid to surgical diagnosis, 363
Pregnancy, mitral commissurotomy in (Dogliotti, Dellepiane, Actis Dato, Gentilli, and Siliquini), 663
Primary carcinoma of lung; follow-up study including pulmonary function studies of long-term survivors (Jones, Robinson, Meyer, and Motley), 144
Prosthesis, sponge Teflon, superior vena caval replacement with (Botham, Dracopoulos, and Gale), 202
Protamine and Polybreme, comparative study of heparin neutralization and danger of blood clotting abnormalities with (Andersen, Mendelow, and Alfano), 613

Proteinosis, pulmonary alveolar; review of literature and case report (Pitt), 252
Pulmonary abscess, pyogenic, prognostic factors and results of treatment in (Andersen and McDonald), 573
artery, left aberrant; correctable cause of respiratory obstruction (Jacobson, Morgan, Andersen, and Humphreys), 602
and cardiovascular function, relationship of postoperative acidosis to (Clowes, Alichniewicz, del Guercio, and Gillespie), 1
fibrosis, primary interstitial: Diffuse and circumscribed forms (Baglio, Michel, and Hunter), 695
function in the immediate postoperative period (Smith, Cook, DeKornfeld, and Siebecker), 788
studies of, before and after pulmonary resection in 450 tuberculous patients. II. Case analysis of patients with large loss of vital capacity and maximum breathing capacity (Mendenhall, Cree, Rasmussen, Bauer, and Curtis), 189
hypertension associated with patent ductus arteriosus, dissecting hematomas of intrapulmonary arteries in case of (Ravines), 760
results of surgical correction of atrial septal defect complicated by (Liddle, Meyer, and Jones), 35
tuberculosis, bilateral surgical treatment of (Pecora), 505
complication in resection surgery for, inquiry into cause and prevention (Eldred and Samson), 716
resectional therapy for, at Sunmount, 1950-1956, 807 cases. III. Evaluation of technique of reconstitution of lung in segmental resections (Kimel), 405
ventilation in hypothermia (Blair and Fellows), 305
Pulmonic valve, autotransplantation of, into aorta (Lower, Stofer, and Shumway), 680
Pumping, veno-arterial, in normal dogs and dogs with coronary occlusion (Patt, Clift, Loh, Roa, Wexler, and Seligman), 464
Pump-oxygenator, design of monitoring devices for use with (Montgomery, Paton, Lucero, and Swan), 225
extracorporeal, respiratory characteristics of (Montgomery), 288
Pyogenic pulmonary abscess, prognostic factors and results of treatment in (Andersen and McDonald), 573
